

AUDLEY 奥德利® SGS CE Professional Quality Trust Worthy

Audley Plateless Digital Foil Stamping Machine

ADL-3050C

Common Features:
AUDLEY DIGITAL HOT STAMPING MACHINES
 The shortly came out of AUDLEY DIGITAL HOT STAMPING MACHINES completely subverts the traditional hot stamping way,plateless hot stamping, we are the world's first.It is also a major revolution in stamping industry,that makes the complicated stamping work become so easy.Meanwhile,It is a real sense of green & low carbon products,our models got many national patents, one year for hot stamping industry is expected to save cost hundreds of millions of dollars,Indirect to cost immeasurably.

The main features

- Plateless,Heatless,Lowest costs
- Easy to operate
- By using software, can print whatever you want like images,words,pictures.
- By using computer, convert a layout in one minute, stamping gold & silver.
- Media types: PAPER, PVC CARD, LEATHER, STICKER, FABRIC, PLASTIC ETC.
- Supporting the main softwares based on windows, like CorelDraw Office Artcut.

Features:
 Control by air, stable pressure
 No need to move the printing media, automatically print, high-efficiency.
 With high accuracy positioning system, saves time and energy.
 Low cost, saves foil with advanced program
 Support CorelDraw/office/word/artcut.

parameter:

Model	Printing Interface	Max printing Length	Max Thickness Admits	Max printing Width	Max Feeding Width	Speed	Resolution	Power	Power Source Specification	Package size	GW
ADL-3050C	Network interface	297mm	90mm	210mm	450mm	30mm/s	300dpi	300W	220VAC 50-60Hz	47cmx42cmx44cm	45kg

AUDLEY 奥德利®

ADL-330B

Features:
 Automatically feed sheets, saves time and energy.
 Controlled by computer.
 With the most advanced foil control center program, easy for operating.
 Maximum improve the accuracy of the location
 High stability with the latest physical construction.

parameter:

Model	Printing Interface	Max printing Length	Max Thickness Admits	Max printing Width	Max Feeding Width	Speed	Resolution	Power	Power Source Specification	Package size	GW
ADL-330B	Network interface	A3 A4	80g-300g	256mm	130mm-350mm	80m/h	200dpi	700W	220VAC 50-60Hz	114cm x 61cm x 135cm	75kg

ADL-3050A/B

Features:

1. It can print on the finished product With in 30 and 50mm.
2. It can printing on A4 size.
3. The printing way: the stable network.

parameter:

Model	Printing Interface	Max printing Length	Max Thickness Admits	Max printing Width	Max Feeding Width	Speed	Resolution	Power	Power Source Specification	Package size	GW
ADL-3050A	Network interface	150mm	30mm	57mm	30mmx450mm	26mm/s	300dpi	150W	100-240VAC 50/60Hz	68cmx43cmx43cm	30KG
ADL-3050B	Network interface	260mm	50mm	57mm	40mmx450mm	26mm/s	300dpi	150W	100-240VAC 50/60Hz	84cmx48cmx43cm	40KG

ADL-330A

Features:

1. ADL-330A is the hot stamping press of plastic with world's first-class.
2. Automatically feed the paper, save time and save energy.
3. High accuracy positioning system, the error is less than 0.01mm.
4. Printing way: Network interface, wireless or traditional way.
5. Unlimitedly print, freely and conveniently.

parameter:

Model	Printing Interface	Max printing Length	Max Thickness Admits	Max printing Width	Max Feeding Width	Speed	Resolution	Power	Power Source Specification	Package size	GW
ADL-330A	Network interface	Unlimited	3mm	256mm	350mm	80m/h	200dpi	700W	100-240VAC 50/60Hz	114cmx54cmx43cm	68KG
